## **SAMPLE QUESTIONS**

# Questions 1 to 12 are based on the following passages.

Both of the following passages concern World War II, 1939–1945. The first passage is excerpted from an article on the events leading up to World War II. The second passage is a comment by Anne Frank. She was the teenager whose diary of her experiences hidden in a secret annex during World War II became famous after her death.

# Passage 1

- World War I (1914–1918) ended for Germany in total defeat. The German people were dissatisfied: the peace treaty was a great humiliation, there was no money, no work and no hope of a better future. In the chaotic 1920s, an unknown Austrian worked his way up to the position of "Fuhrer" (leader) of an insignificant political party in Munich. His name was Adolf Hitler; the party called
- itself the NSDAP and its followers were called "Nazis." After an unsuccessful coup d'etat, Hitler was put in a comfortable prison, where he wrote his plans for world domination in a book called *Mein Kampf (My Struggle)*. Hitler said that the German people were "Aryans," the strongest and best race. All other races were inferior, especially the Jews, whom he blamed for everything that was wrong and for all Germany's defeats. Hitler's ideas appealed to many Germans and the
- NSDAP soon became powerful. In 1933, Hitler was appointed Chancellor of Germany and, within a year, consolidated all power within his grasp.
  - The concentration camps filled up—first with political opponents, particularly Communists and trade union leaders, but soon with Jews, Gypsies, homosexuals; in brief, everyone who disagreed with him or whom he regarded as inferior. The Nazi oppression of the Jews was marked by two
- 15 significant events: The Nuremberg Laws and the Wannsee Conference.
  - The Nuremberg laws, passed in 1935, deprived Jews of citizenship. Jews were forbidden from marrying non-Jews, working in the professions (including law, medicine, journalism, and teaching), and using public transportation. Jews could not drive cars (even their own) or go to the movies or theaters. At the Wannsee Conference, a top-level Nazi meeting in 1942, the "Final
- Solution of the Jewish Question" was set into motion—the extermination of all Jews in Europe. All of life in Germany from 1933 on was oriented towards preparation for war. Few people, however, realized this. In September of 1939, World War II began with the invasion of Poland. Between then and 1945, this war was to cost nearly 55 million people their lives. Between the German invasion of the Soviet Union in 1941 and the end of the war in Europe in May 1945, Nazi
- Germany and its accomplices strove to murder every Jew under their domination. The Jews were not the only victims of Hitler's regime, but they were the only group that the Nazis sought to destroy entirely.

## Passage 2

- I don't believe that the big men, the politicians and the capitalists alone, are guilty of the war. Oh no, the little man is just as guilty, otherwise the peoples of the world would have risen in revolt long ago! There's in people simply an urge to destroy, an urge to kill, to murder and rage, until all mankind, without exception, undergoes a great change, wars will be waged, everything that has been built up,
- 5 cultivated, and grown will be destroyed and disfigured, after which mankind will have to begin all over again.

-May 1944

- 1. The writer of passage 1 uses the redundant phrase "total defeat" (line 1) to
  - (A) imply that the Germans were not at fault for losing World War I
  - (B) infer that the Germans were overpowered from the start
  - (C) emphasize the German feeling of complete and utter disgrace after their defeat
  - (D) hint that not all Germans felt the same way about the debacle
  - (E) suggest the Germans deserved their defeat in both World War I and World War II
- 2. Why does the writer place the word *Fuhrer* (line 3) in quotation marks?
  - (A) to draw attention to it
  - (B) to show it is a foreign word
  - (C) to comment ironically that Hitler was no leader
  - (D) to make sure that people pronounce it correctly
  - (E) because it is deliberately misspelled for emphasis
- 3. From the details in the passage, what can you infer was Hitler's reason for writing *Mein Kampf*, his plans for world domination?
  - (A) He did not have enough to do in jail.
  - (B) He always had literary aspirations and considered himself a fine writer.
  - (C) He needed the money that the publication would bring to finance his political aspirations.
  - (D) He wanted to justify and legitimatize his strategy to the widest possible audience.
  - (E) He had been asked to create the plan by his political party.
- 4. According to passage 1, the Nazis oppression of the Jews was marked by all the following events *except* 
  - (A) forbidding Jews from marrying non-Jews
  - (B) depriving Jews of citizenship
  - (C) forbidding Jews from working as teachers and from using public transportation
  - (D) blaming Jews for Germany's defeat in World War I
  - (E) forcing Jews to leave the country
- 5. Based on the details in passage 1, why do you think Hitler's ideas appealed to many Germans?
  - (A) Hitler came from a well-educated, cultured family so he attracted people looking for a strong leader.
  - (B) The Germans were looking for someone who could both find a scapegoat for their humiliation and improve economic conditions.
  - (C) Hitler was an outsider so he could bring fresh, new ideas into the country.
  - (D) The Germans were swayed by the high quality of Hitler's writing in *Mein Kampf*.
  - (E) Unlike other leaders of the time, Hitler could carry through on his promises.
- 6. Passage 1 is organized according to
  - (A) chronological order
  - (B) least-to-most important events
  - (C) most-to-least important events
  - (D) cause and effect
  - (E) reasons and causes

- 7. In passage 2, the phrase "big men" (line 1) is used to connote
  - (A) powerful people
  - (B) non-Jews
  - (C) physically strong people
  - (D) rulers removed from the action
  - (E) expatriates living safely abroad
- 8. In passage 2, Anne Frank sees people as
  - (A) very different, depending on their economic status
  - (B) essentially kind, but misruled by tyrants
  - (C) responsible for their own fate
  - (D) welcoming change as a way to start anew
  - (E) helpless pawns on the world stage
- 9. As used in line 5, the word *disfigured* most nearly means
  - (A) misshapen
  - (B) assassinated
  - (C) handicapped
  - (D) wounded
  - (E) marred
- 10. These passages are similar in that both
  - (A) were written by the same author
  - (B) describe the same event in world history
  - (C) approach the topic from the same point of view
  - (D) were written for the same audience and purpose
  - (E) have a marked bias
- 11. In what way is the tone of passage 2 different from the tone of passage 1?
  - (A) The tone of passage 2 is lighter and less serious than the tone of passage 1.
  - (B) The tone of passage 2 more serious than the tone of passage 1.
  - (C) The tone of passage 2 is less factual than the tone of passage 1.
  - (D) The tone of passage 2 is more sardonic and sarcastic than the tone of passage 1.
  - (E) The tone of passage 2 is darker and more pessimistic than the neutral tone of passage 1.
- 12. What does the second passage add to your understanding of the events leading up to and culminating in World War II in Europe?
  - (A) How all people reacted to these events
  - (B) How these events affected one individual
  - (C) Why these events mattered on the world stage
  - (D) How these events affected the oppressed Jews of Germany
  - (E) Ways to prevent future wars

# Questions 13 to 20 are based on the following passage.

Millions of years ago, dinosaurs roamed the earth freely. About 65 million years ago, they all died out. Few mysteries have been as baffling—and as compelling—as the disappearance of the dinosaurs. Here are some of the latest theories.

- Dinosaurs roamed the earth for nearly 150 million years; then they suddenly died out and became 1 extinct. No one knows exactly why. Paleontologists once thought that dinosaurs had such small, inefficient brains that they were somehow responsible for their own dying out. Because dinosaur remains have been found in so many different parts of the world, scientists have had a hard time 5 coming up with a single strong explanation for their sudden demise. There are a lot of theories, however, and some of them are fantastic. Some observers, for example, have suggested that the dinosaurs vanished because of raids by extraterrestrial beings. Other theories are more logical but still guesses. The dinosaurs could have died because of some mass disease. That seems unlikely, though, because of the way they were dispersed all over the world. Some speculate that 10 an exploding star bathed the earth in radiation, killing all the dinosaurs. This does not explain why all the other creatures on earth survived. There is also a theory that dinosaurs disappeared because of overcrowding. One well-regarded theory concerns food sources. According to this theory, the dinosaurs ate too many flowering plants and absorbed poisonous chemicals. Since they did not have a well-developed sense of taste, the dinosaurs did not realize that they were 15 eating something that would harm them. These theories remain just that however—theories because no one to date has been able to prove any of them.
- 13. Who or what are *paleontologists* (line 2)?
  - (A) A type of dinosaur
  - (B) Extinct life forms
  - (C) Dinosaur bones
  - (D) A scientific theory that does not have much credence
  - (E) Scientists who study extinct forms of animal life
- 14. As used in line 4, the word *remains* most nearly means
  - (A) leavings
  - (B) skeletons
  - (C) stay behind
  - (D) cadavers
  - (E) remnants
- 15. According to the information in the first paragraph, what is one possible cause for the dinosaurs' disappearance?
  - (A) The paleontologists killed them.
  - (B) They were inefficient creatures who did not use their food sources wisely.
  - (C) They were unable to survive because of their small brains.
  - (D) They were attacked by other, more fierce, creatures.
  - (E) They lived in many different parts of the world.
- 16. Which sentence best states the main idea of the first paragraph?
  - (A) No one really knows why the dinosaurs vanished.
  - (B) It is a real shame that we no longer have dinosaurs to study.
  - (C) It is relatively easy to study dinosaurs because so much is already known about them and they are found in so many places around the world.
  - (D) Paleontologists learn about vanished forms of animal life.
  - (E) Dinosaurs had such small brains that they could not meet the demands of a changing world.
- 17. By calling the theories "fantastic" (line 6), the writer is suggesting that on the whole these theories are
  - (A) well deserving of merit
- (B) creative but unrealistic

(C) totally unreasonable

- (D) wild and unproved
- (E) scholarly and authoritative

- 18. Which information in the second paragraph can be verified by an outside source?
  - (A) Visitors from outside our solar system killed off the dinosaurs.
  - (B) There are many theories that attempt to explain the dinosaurs' disappearance.
  - (C) The dinosaurs vanished because of a plague.
  - (D) A star blew up and sent off radiation that killed all the dinosaurs.
  - (E) The dinosaurs died off when they ate the wrong food.
- 19. The description in the second paragraph moves from
  - (A) least logical to most logical
  - (B) most logical to least logical
  - (C) causes to effects
  - (D) chronological order: most distant past to more recent events
  - (E) inductive to deductive reasoning
- 20. Which of the following choices can be inferred from the information in the second paragraph?
  - (A) Very soon, scientists will be able to prove one or more of the theories about the dinosaurs' disappearance.
  - (B) Most of the theories of the dinosaurs' disappearance are not backed up by sufficient facts to be convincing.
  - (C) The same exploding star that killed off the dinosaurs also killed off many early cave people.
  - (D) The disappearance of the dinosaurs is one of the most important problems facing scientists today and has great impact on other research.
  - (E) The reason for the dinosaurs' disappearance has puzzled many scientists.
