## From The Revered Founder Chancellor

Every nation has developed its institutions and way of life based on its cultural traditions, its system of values, and its historical circumstances. We should be concerned with, 'Man Management.' The proper study of mankind is man. Men should learn to be pure in thought, word, and deed.

In the Sai Institute, we attach special importance to cultural and ethical values. The course will cover such matters as the Indian economic environment, Personnel management, Organizational behaviour, and Business Communication. Emphasis will be placed on Personnel Management and Human Values, which are not very much reflected in the courses of studies in other management institutes now. The study of "Indian Ethos and Values" will be the most distinctive feature in the MBA Course of the Sai Institute. No other Management Institute in India has provided for this subject.

Our programmes should be based on our resources and on our practical ability to achieve our goals. We have also to combine morality with spirituality, in business and other spheres. All over the world, there are numerous institutes of management. They confer the Master's Degree in Business Administration. I do not regard this as the right course for India. In some countries, instead of an MBA., they have a Master's Degree in Business Science (M.B.Sc.). In our Institute we want to turn out Masters in Man Management (M.M.M.). The students should develop a broad outlook and prepare themselves to serve society with sincerity and dedication. They must set an example of morality and bring credit to the country through their work and their contribution to the development of the nation.

**21st August 1986**  
**MBA Inauguration Day**

**Bhagawan Sri Sathya Sai Baba**

## Chancellor's Message

The Sri Sathya Sai Institute of Higher Learning is an institution founded on principles that blend traditional education and modern pedagogy/andragogy. Our experience over the past four decades has been that the students who pass through these portals strive to live the "Integral Education" philosophy, which aims to develop moral integrity, compassion, a sense of social responsibility, and intellectual prowess.

The real goal of education must be to create people who are not only capable of learning academic subjects but also morally upright, socially sensitive, and spiritually aware. At Sri Sathya Sai Institute of Higher Learning, a demanding academic programme is coupled with an atmosphere that develops leadership abilities, character development, and mental maturity. This distinctive method guarantees that our graduates are equipped not only to thrive in the corporate world but also to navigate through various challenges they may face throughout their lives with clarity, empathy, and resilience.

We imbibe in our students the capacity to take initiative, and be flexible in adapting to change while delivering the highest standards of excellence in whatever they do.

**Sri K. Chakravarthi, I.A.S. (Retd.)**

## Vice-Chancellor's Message

The MBA programme at Sri Sathya Sai Institute of Higher Learning emphasizes "Man Management." The primary goal of Sri Sathya Sai Education is to humanize spirituality and spiritualize education. It is widely recognized that students from our institute have distinguished themselves in their professions through discipline, hard work, commitment, and integrity. They stand as living examples of the success of the Sri Sathya Sai Integral Education system.

Our MBA programme is designed not only to impart knowledge but also to enhance employability through practical exposure. We emphasize professional development by cultivating critical skills such as leadership, strategic thinking, and problem-solving, all of which are essential in today's dynamic business world. I am confident that our MBA graduates, equipped with the values and skills fostered by this programme, will make significant contributions to both the corporate world and society.

I would like to express my gratitude to our corporate partners and alumni for their unwavering support, and I encourage them to continue conducting workshops and interactive sessions that benefit our students.

**Prof. B. Raghavendra Prasad**

# Message from the Registrar & Dean

## Registrar's Message

Learning at Sri Sathya Sai Institute of Higher Learning (SSSIHL) is an endeavour to reach lofty goals of education. To mould capable men and women of good character is the envisioned intent of every programme, Our Founder Chancellor's vision of brotherhood of man guides every student to use their abilities for societal benefit and discover the merit of need-based value addition. With the chiselling strokes delivered through the hands of able faculty and renowned industry professionals, SSSIHL programmes shape every student into a leader endowing him/her with the critical current knowledge, academic acumen and decision making capabilities readying them for the challenges ahead.

Our alumni are a fair testimony to the efficacy of this integral system of education in realising one's innate potential. I sincerely thank all the industry partners who have found true value in recruitments at SSSIHL all along the years of engagement. I strongly believe that learning does not begin or end at an educational institute. I extend a warm invitation to your organisation to interact with our current students and partner with us in our journey towards higher learning.

Dr. Srikanth Khanna

## Dean's Message

Education, at its core, is about drawing out the innate potential within each individual—the essence of 'Educare.' Manifesting this inner potential into skills, attitudes, abilities, and competencies requires a deep understanding and experience of what lies within. At Sri Sathya Sai Institute of Higher Learning (SSSIHL), our educational approach is rooted in this inner experience, making the journey holistic and transformational. This is what sets SSSIHL apart from other institutions. Our focus on character building distinguishes our management courses from those driven solely by placement outcomes. Education here is viewed as preparation for life, not just a means to earn a living.

Interestingly, even premier institutions like the IIMs are now considering shifting from placement-focused education to fostering long-term employability—a philosophy SSSIHL has upheld for decades. Our mission is to nurture professionally competent, socially responsible, and spiritually conscious individuals.

As faculty members, we have the unique privilege of witnessing our students' transformation. They evolve from merely possessing potential to demonstrating competence, and from tentative uncertainty to growing confidence. This graduating class is no exception. Within the distinctive environment of SSSIHL, students learn that true professionalism and skill are deeply rooted in values and sincerity.

Dr. Suma Uppalury

## From the Department Heads

### HoD's Message

As the head of the Department, I feel very blessed to have been part of a Batch of 23-25 MBA students during the past two years. I am grateful to the students for making it such a wonderful experience for all of us. It has been rightly said, "A journey of a thousand miles begins with a single step". The present business scenario is dynamic and highly challenging. A student has to prepare and ensure his or her readiness to exploit the opportunities emerging in this highly competitive market. Management institutions play a vital role in inculcating these values and helping deliver them to the rest of the world.

At SSSIHL, the excellent infrastructure and teaching faculty ensure quality education through continuous interaction with students, and parents, along with our Training and Placement Cell, which ensures a bright future for our students.

Our students with The Blessings of Bhagawan Baba will emerge as assets not only to the institution and to the organization they join but to the society at large.

I congratulate the students for their brilliant and unconditional efforts.

Dr. K Sayee Manohar

### Associate HoD's Message

"Hire Leaders, Not Just Managers. SSSIHL MBA graduates are not merely skilled professionals; they are individuals equipped with a strong foundation of character, empathy, and vision. Our programme fosters leaders who can navigate complexity, make ethical decisions, and drive sustainable growth. We offer you more than just business acumen. Our students are deeply rooted in values, possess exceptional problem-solving abilities, and are ready to contribute meaningfully to your organizational success. Experience the difference of hiring an MBA who is not just career-oriented, but purpose-driven.

Key differentiators: Character-building, value-oriented education, holistic development, and a focus on self-development. Hire our graduates to experience the impact of leaders with a strong moral compass and exceptional business skills."

Dr. G Padmavathy

## In the Words of Our Faculty

"Our Students imbibe priceless values enshrined in the Vedas duly simplified by Bhagawan Sri Sathya Sai Baba. The focus in Sri Sathya Sai Institute of Higher Learning (SSSIHL) is twofold. Quality education is provided to students with application orientation and modern relevance to excel in their careers. This is provided in an ambience of Indian spirituality and values with practical relevance. Both the streams (Modern Education and Ancient Spiritual Values) flow with application orientation through a lot of interaction with Industry Professionals and field visits. In short, a sustainable mix of the latest Modern education and Ancient spirituality is delivered to students which makes them successful not only in their careers but also their entire life. Needless to mention every student is made aware of their duty to society not only nationally but also globally."

**Dr. L Goverthanam, Finance Faculty**  
Former Financial Controller - Ashok Leyland

"Good leaders possess a combination of intelligence, emotional intelligence, and a sense of purpose. They inspire and guide others while creating a positive impact on organizations and society. The approach of Sri Sathya Sai Institute of Higher Learning (SSSIHL) MBA programme is unique. We develop good human beings by nurturing a balance of IQ (Intelligence Quotient), EQ (Emotional Quotient), and SQ (Spiritual Quotient). By cultivating a unique educational environment, the SSSIHL MBA programme empowers its graduates to become effective leaders who can positively impact organizations and society at large."

**Mr. Vivek Kapoor, Marketing Faculty**  
Former Head, Alliances & Institutional Business, Tata Rallis

"Among the many obstacles that the present generation of students faces are changes in lifestyles, value recognition, integrity, and modesty. To integrate into society with a well-rounded perspective, they must deal with significant changes in all spheres of life and develop soft skills and life skills. I want to thank the Sri Sathya Sai Institute of Higher Learning students who have dedicated and hardworking zeal to prepare humbly and subtly for this metamorphosis. The graduates from this Gurukula system of integral education demonstrated an ethically driven, task-oriented problem-solving approach."

**Dr. C Jayashree, Management Faculty**

"Our MBA programme is designed to propel our student's careers to new heights through a comprehensive curriculum that combines theoretical knowledge with practical experience. Value-added programmes, internship opportunities, and networking skills make our students a class apart."

**Mr. C N Kshetragna, Professor of Practice**  
Founder & Director, CareerHi

# SSSIHL - A Modern Gurukula

## Vision

To assist generations of students acquire Self-knowledge (Atma Vidya) and Self-confidence (Atma Vishwas), so as to cultivate Self-sacrifice and earn Self-realisation; thereby moulding them into leaders who will benefit society.

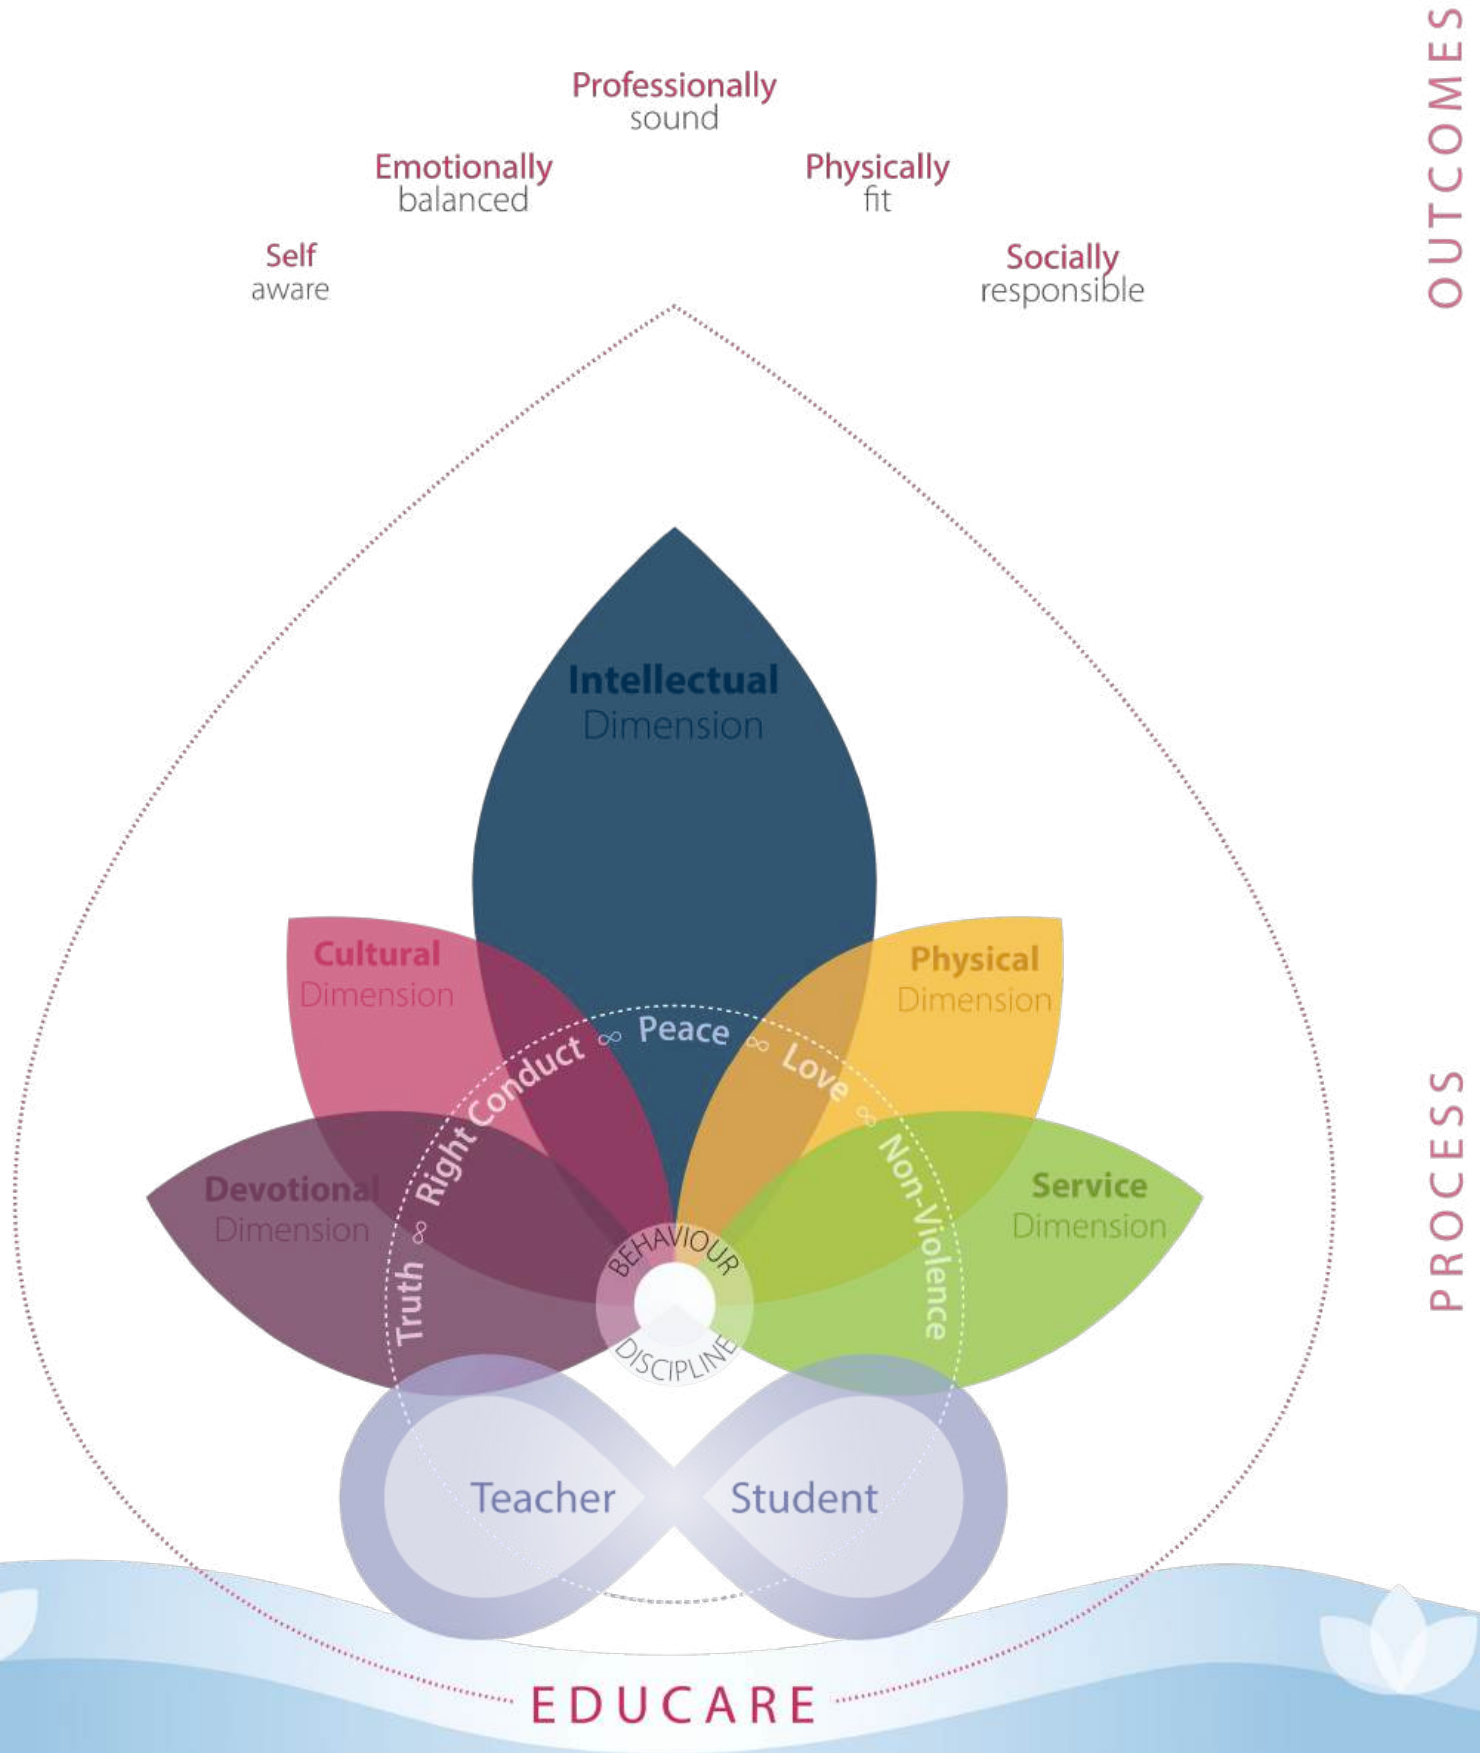

## Mission

To mould well-rounded holistic individuals – professionally sound, socially responsible and spiritually aware – who embody noble values and a right attitude, through Educare (Integral Education based on Human Values) that caters to the physical, intellectual, emotional, psychological and spiritual dimensions of the human personality.

# Alumni Testimonials

BB

Being a product of the Institute myself, I understand the rigour, discipline, and love that goes into developing each student into a well-rounded personality. Sai students offer a rare combination of a high-calibre professional with no compromise on character. We as an organization have benefitted immensely from the contributions made by Sai students at Five Star.

**Mr K Rangarajan**  
**Joint Managing Director**  
**Five Star Business Finance Limited**

BB

BB

I have associated and guided close to a dozen SSSIHL Students. One of my earliest hires from SSSIHL, Manoj Dusanapudi is also a Senior Technical Staff member. He became STSM in about 10 years which is considered to be an exponential climb in the ranks of IBM. STSM is a nota promotion instead is a very strict peer-reviewed nomination. The process and review are overseen at the corporate level. Since Manoj, there have been more SSSIHL students at IBM. I am requested to bring more SSSIHL students to IBM. The management at IBM is willing to hire SSSIHL students even without an interview. They have the impression that if a student is from SSSIHL he has to be excellent in all capabilities. It is a well-known fact in IBM that SSSIHL is a crucible where imparting character is as important as anything else in education. SSSIHL students in IBM display leadership rooted in character to make a difference that matters to all around them including IBM customers. They play a very critical part in being the best role model to be emulated by all.

**Mr Shakti Kapoor**  
**Chief Architect, STSM**  
**IBM**

Overall, our experience with the colleagues who have joined us from Sri Sathya Sai Institute of Higher Learning has been highly positive.

1. One of the most important aspects that stands out is the "values" with which they carry themselves around and demonstrate on a day-to-day basis - both professionally and in social settings.
2. They carry a positive attitude, are always willing to learn, eager to contribute 360 degrees with a strong sense of responsibility.
3. Very versatile and most often willing to take up various functions and are generally quick to assimilate knowledge on the job.
4. Confident in both oral and written communication, but always carrying humility along.
5. I am equally glad that they easily mingle with the rest of the teams. Collaboration comes very naturally for most of them.
6. Happy to see them volunteer and happy to take up cross-functional initiatives. I am very confident that most of these colleagues will grow into mature and able leaders over the years, with constant nurturing, the right exposure, opportunity, and continuous guidance.

## Alumni Footprint

## 39th MBA Day Celebrations

Shri Alok Ohrie, President & MD of Dell Technologies India, delivered a compelling address as Chief Guest at the 39th MBA Day of Sri Sathya Sai Institute of Higher Learning. He emphasised the critical role of emerging technologies like AI and Machine Learning in maintaining competitiveness. Shri Ohrie shared valuable life lessons, stressing the importance of integrity, ethical leadership, and commitment to excellence. His candid and humour-infused talk left a lasting impression on the audience. The MBA Day celebration marked the 30th anniversary of the 1992-94 batch. The event featured insightful discussions, addresses from distinguished speakers, and interactive sessions. It included a welcome address, inaugural speech by the Vice-Chancellor, and talks by notable alumni. The afternoon saw case study discussions, providing students with practical insights into business strategies. The day concluded with the inauguration of newly equipped MBA classrooms, reflecting the Institute's commitment to modern education.

## C-Suite Insights

The MBA students participated enthusiastically in a day-long event titled "C-Suite Insights on Enterprise Risk Management," which was organized by the Department of Management and Commerce, Sri Sathya Sai Institute of Higher Learning. Distinguished speakers from various industries shared their expertise on topics such as risk identification, mitigation, and the role of CFOs in risk management. Key sessions included discussions on risk management in consulting, insurance, and healthcare sectors, as well as the application of certain ERM frameworks.

The event also featured panel discussions and case-study analyses, enabling students to apply theoretical concepts to real-world scenarios. The event successfully bridged the gap between academic learning and practical application, preparing students for future challenges in risk management.

## Launchpad to Success

**Mr. Anand Nergunam S**, Vice-President – Revenue Management & Growth, Zoho Corporation, enlightened students on the importance of identifying and developing their core competencies as they prepare to transition from campus to corporate life. He emphasized self-assessment and seeking feedback to uncover unique skills, talents, and strengths. By focusing on these areas, students can enhance their performance, achieve personal and professional growth, and create a competitive advantage in their careers.

## Thought Leadership for Management Consulting

Mr. Rudra Shankar Roy, Consultant, emphasized the evolving role of consultants, stressing the importance of proactive problem-solving, clear communication, and the integration of AI with human expertise.

Mr. Roy also highlighted the significance of structured frameworks like Assess, Analyze, Design, Implement (AADI) and Responsible, Accountable, Consulted, Informed (RACI), which can enhance consulting effectiveness and accountability.

Additionally, he underscored the value of data-driven decision-making and the need for tailored, timely solutions to meet client objectives—key competencies for management students to develop as they step into the professional world.

## Classroom to Corporate

The session brought together esteemed leaders from diverse industries to share their insights on leadership, sustainability, and technological innovation. Dr. Kovaichelvan discussed visionary leadership through self-transformation, emphasizing personal growth as a cornerstone of success.

Mr. B.R. Indushekar focused on Volvo's journey with Environmental, Social, and Governance (ESG) practices, highlighting corporate responsibility. Dr. S. Devarajan shed light on TVS Motors' evolution, stressing people involvement in driving industrial innovation.

Finally, Shri A.N. Chandramouli explored emerging trends in manufacturing technology and their impact on jobs, providing a comprehensive view of industry transformation.

## National Startup Day Celebrations

The National Start-Up Day Celebrations at Sai Hira Global Convention Centre provided a platform for meaningful discussions, insightful talks, and recognition of outstanding contributions in the field of entrepreneurship. It served as a diverse hub for innovative ideas and entrepreneurial spirit, reinforcing the belief that each participant possesses the potential to stand out and create a substantial impact.

The event successfully promoted the spirit of innovation and entrepreneurship, leaving the participants with valuable lessons and inspiration for their entrepreneurial journeys.

# Industry Connect

The Department of Management and Commerce arranged insightful industrial visits for our budding managers, which included visits to Ashok Leyland, Chennai Petroleum Corporation Limited, Ebco Fittings, Carborundum Universal Murugappa India Limited, ZF Rane Automotive India Private Limited. These visits equipped students with knowledgeable experience and exposure to diverse industries' Operations.

The core purpose of these visits was to get a deep understanding of various industries be it Automotive or Energy. The visit gave students an overall understanding of different aspects of management and how they are being practiced in the domains of Finance, HR, Marketing, and Operations, which immersed them in a real-world context.

88

"I had the privilege of interacting with and addressing the final year MBA students of Sri Sathya Sai Institute of Higher Learning, Anantapur Campus. Having conducted similar sessions with students from diverse backgrounds in the past, this experience stood out for me.

These young women are not only smart and aware but also deeply knowledgeable about their subjects. They are innovative thinkers and adept problem solvers, possessing both sympathy and empathy. Moreover, they are spiritually elevated souls.

I am confident that, given the right opportunities, these women will be great and successful entrepreneurs and an invaluable assets to any organization they are hired for!"

# SRI SATHYA SAI INSTITUTE OF HIGHER LEARNING

(Deemed to be University)

## The Placement Team

"Sri Sathya Sai Institute of Higher Learning (SSSIHL) uniquely combines academics with enduring value systems to produce standout citizens. The students come out well-rounded and equipped to face the daunting corporate world. SSSIHL's cutting-edge curriculum, supported by state-of-the-art infrastructure and delivered through faculty leaders in their domains, distinguishes itself. The Annual Sports Event tests every student's physical, emotional, and intellectual mettle, fosters team spirit, and helps them be ready for any eventualities in life ahead. Structured internships and industrial visits form the icing on the cake.

No wonder our students are sought out by organizations, as testified by our alumni, who hold senior positions in leading corporations."

**Mr. Vaidyanathan R Iyer**  
**Training & Placement Officer**  
**Former Chief of Operations, IBM Security X-Force Cyber Range-AP**

"Bhagawan Baba, Founding Chancellor says Education means not merely knowledge, but knowledge in action. Managers should be role models who will inspire, they should remove dissatisfaction in workers and create enthusiasm among them. Only when the students cultivate these Adhyaatmic feelings will they develop patience and courage automatically. We are proud to say that the institute provides a system that, automatically facilitates the development of these virtues in students along with the practical knowledge of the Business and Academic world. We wish that our students continue to lead an exemplary life and use the opportunity given to contribute and grow."

**Professor B Sai Giridhar**  
**Department Placement Coordinator**  
**Brindavan Campus**

"In the words of the Founder Chancellor of this Institute, " Education is meant not to satisfy the senses but to make one transcend the senses and set an ideology to society. ", and every student in this place stands as a testimony to this. The integral system of education kindles in each one of them, the aptitude to attain knowledge, strengthen skills; and attitude to be confident, bold, and compassionate; to reach the altitude for achieving organizational goals and serving the society. Wishing all students to shine not only as stars but to unite as a radiant constellation in the sky."

**Ms. Chintamala Priyanka**  
**Department Placement Coordinator**  
**Anantapur Campus**
