was a key contributor to India's space science endeavors, serving as a lead member of the UVIT-ASTROSAT mission of ISRO. Beyond his scientific achievements, Prof. Raghavendra Prasad has actively participated in various national and international academic and research committees.

Over 35 years, Prof. Raghavendra Prasad has been deeply involved in various relevant service initiatives as part of the IIT Bombay alumni network. His leadership in Energy Technologies and his stewardship has led to significant contributions in several initiatives under the Sri Sathya Sai Centre.
